🧠 Professional Experience

Software Engineer – Steven Ouandji LLC

Remote / Austin, TX — 2016–Present

- Designed, Craft-Conceived and Developed a mobile application whose purpose was to facilitate the onboarding and menu ordering process of clientele for a mobile food catering company. – Android SDK

- Developed and maintained RESTful APIs in Java, enabling secure data transfer across a variety of applications. – Java, Amazon Web Services
- Designed, Craft-Conceived and began the development of a TCP/IP Networking Protocol whose purpose is to tackle the challenges of TCP's transmission speed and UDP's packet reliability -- C++

- Designed scalable AWS serverless pipelines (Lambda + DynamoDB + SQS) to automate and process real-time event attendant data analytics.
- Designed, Craft-Conceived and began the development of a TCP/IP Networking Protocol whose purpose is to tackle the challenges of TCP's transmission speed and UDP's packet reliability -- C++(A.C.E.😋)

🎓 Education

B.S. in Computer Science
Texas State University – Austin, TX

A.S. in Computer Engineering
Rose State College – Midwest City, OK

A.S. in Computer Science
Austin Community College – Round Rock, TX

A.S. in Diversified Studies
Oklahoma City Community College– Oklahoma City, OK

🧩 Projects & Highlights

- **Parking Garage Management System:** Orchestrated deployment of C++-based APIs that operationalized parking garage business enterprise
- **Migration to Cloud:** Developed a solution that facilitated the onboarding and COVID-compliance assurance process of an event planner
- **Migration to the New Digital World 8^):** Performed a complete overhaul and modernization of an auto restoration company; increasing the capabilities and overall functions that their website served in their day-to-day operations -- retrorestoration.com
- **Natural Resource Identification and Management System**: Designed, Craft-Conceived and began the development of a whose goal is to question conventionally held ideas about what a Natural Resource while, simultaneously, shedding light on how its refinement processes yield subconscious biases as to the end-commercial applications its typically found, exercised, arbitraged, and commerced in. – Adobe Illustrator, MySQL, C++,
-

- **Strategic Business Development:** Analyzed, established and executed a strategic business development plan for a Haiti Travel Agency that doubled their awareness, traffic, and sales. -- Karamel509.com
